

Jumper

Security governance and advisory

The company

Jumper Consulting provides outsourced security services to both large and medium organisations dealing with the increasing security threats and compliance landscape.

Established and **ISO 27001 certified since 2008** in Dublin and offices in Rome and Paris.

*CSIRT - Computer Security
Incident Response Team*

PCI DSS compliance

Security governance for SME

Security education and training

Jumper CSIRT is accredited by the
European Network and Information
Security Agency (ENISA)

Mission and customers

Our IT security monitoring and assessment activities are meant to provide the clients with a greater awareness of the risks affecting their network and with the solutions deriving from investigation.

Security response team monitors your IT infrastructure, supporting your security staff in handling incidents even in critical scenarios.

Partners

Jumper has forged strong relationships with many industry bodies, and is recognised by the main international security organisations and advisory groups.

Jumper

CSIRT

A skilled team of IT Security experts focused on the provision of outsourced C-SIRT services including but not limited to **incident response** (phishing, virus outbreak, data recover,..), daily report, **vulnerability assessment**, patch management.

PCI compliance

Our PCI Qualified Security Assessors (QSA) and IT security specialists cover initial scoping, gap analysis and audit services to guide our customers (merchants and service providers) through **the whole process of Payment Card Industry standard compliance**.

Security for SME

In the light of a higher demand for round-the-clock security governance by small and medium enterprises, Jumper provides an integrated outsourced monitoring and incident handling service to give these customers a **Security Operation Centre as a service**.

Education

Jumper **education programs** aim at spreading and increasing **IT security awareness** in small and medium organisations, designed on customer's demand and tailored to his requirements and business.

Jumper hosted the 33rd TF-CSIRT meeting in collaboration with Terena and Trusted Introducer at which the main European CSIRTs participated.

“ACCREDITED CSIRT AND PCI ASSESSOR, JUMPER IS AN IDEAL PARTNER IN SECURITY MANAGEMENT”
